EXHIBITION NUREMBERG | HALL 5 | STAND 5-143

## INNOVATIVE WINDOW COATINGS

Dear Customers,

we would like to invite you to take a glimpse into the future of window coatings. At Fensterbau Frontale 2026, we will be presenting three innovative solutions that open up new possibilities for window manufacturers – efficient, high-quality, and practical.

Our development teams have been working intensively to create coatings that enhance materials, simplify processes, and perfect surfaces.

Be inspired, exchange ideas with our experts, and discover how we are already making windows fit for tomorrow.

**We look forward to your visit!**

### **New possibilities in wood selection:**

Our new primer is a true chameleon among our innovations. It turns simple into elegant and expensive into smart. It delivers positive and high-quality results at optimised costs.

### **Efficiency reimaged:**

“A second coat” that packs a punch: This intermediate coating increases flexibility and quality. This technological milestone brings a veritable flood of improvements, especially for pine, oak & larch.

### **Naturalness perfected.**

Velvety, waxy and warm. This is how customers want the surface of natural windows to feel. Look forward to a soft, oil- and water-based finish that gives a high-quality, transparent and homogeneous appearance.
